1800-1850

The early 19th century was a period of significant change in the United States. The nation was expanding westward, and the economy was beginning to diversify beyond agriculture. The Industrial Revolution was taking hold, and new technologies were being developed. The political system was also evolving, with the rise of new parties and the expansion of suffrage. The Civil War would eventually erupt, but for now, the nation was in a period of relative stability and growth.
